TWAIN RENAMES PROVIDENCE. Allwise President." Says He at Post-Graduate Medical Binner.

There was a large gathering of doctors at the annual dinner of the directors and faculty of the New York Post-Graduate Medical School at Delmonico's last evening, and they listened to many speeches. President George N. Miller presided, and remarking that there was a fine bunch of fireworks to be set off started with Mark Twain.

Mr. Clemens said that he had been sorry ever since his September burglars had been sent to jail, because they really did him a very great service -they scared off all the servants on the place. He spoke off all the servants on the place. He spoke of the great services of the post-graduate school in-bringing 20.000 physicians here from all parts of the country, bringing them up to-date and sending them back with renewed confidence. He thought they surely saved 100,000 lives which otherwise would be lost.

Confined in a flery prison, with all means of communication with the shore cut off and the icy waters of Lake Michigan all about them, the workmen made a desperate fight for their lives which was witnessed by crowds on the shore. As soon as the alarm was given prompt measures of relief were taken, but the quick spread of the flames in the wooden structure and the distance to be covered made these efforts all but fruitless.

As the committee will only have \$25,000 to spend, it was concluded not to arrange for the decoration of the City Hall A resolution was adopted asking the Mayor to issue a proclamation calling on the residents of the city to decorate their homes. HIDDEN BOOM FOR METZ

BUSINESS MEN JOIN IN LOVE FEAST TO HIM.

Mayoralty Not Mentioned, but the Avalanche of Compliments Seemed to Point That Way-And, as Mr. Metz Says, It's a Job Any Man Would Like.

Comptroller Metz, who has attended more dinners in honor of other persons than any other man in New York -he says so himself was himself the guest of honor of about 500 business men at the Waldorf-Astoria last night. No special organization or organizations of business men entertained Mr. Metz. His hosts were men of affairs in Brooklyn and Manhattan who responded to the call of a dinner committee to come along and whoop it up for a regular fellow.

Mr. Metz refused to believe that the dinner was arranged to launch his boom for Mayor, and none of the men who were responsible for the dinner and the avalanche of compliments would admit that the banquet had been designed as a sort of hot air retort for the distention of one large boom, but there was a pretty strong idea that the men who attended the dinner, Republicans as well as Democrats, wouldn't complain bitterly if Metz agreed to be a candidate.

discovery that citrox, a common chemical, cures all forms of skin diseases, may cal, cures all forms of skin diseases, may be judged from letters in newspapers all over the country from people who have used his recipe with success. A grateful Bay City (Mich.) mother says:

"I take great pleasure in letting you know what wonderful citrox did for my baby. He was affected with sait rheum for nearly 18 months and we tried everything we heard of and took him to three different doctors, but he only got worse and worse. I was so discouraged I had lost faith in everything. His neck was all raw from the scratching, and he cried so much, too. Often I had to tie cloths on his hands, but he would rub just the same.

"Finally I saw in the Bay City Times about citrox, so I bought a box at the drug store and after two weeks' use my baby's face became clear as wax and the sores have never returned, and it is now nearly nine months that he was cured. I will gladly answer any letters if stamps are enclosed. I have told many people about citrox and I want everybody to know how wonderful it is.
